## A CLEAN FINISH

The flush steel interior skin gives the door a cleaner appearance while adding strength, sound and energy values. And, Windsor Republic Doors guarantees the 780 against delamination for 5 years.

## KEEP THE OUTDOORS OUTSIDE

The full width, bulb type vinyl bottom weather seal fits right against floors sealing out moisture, light and energy leaks.

## BEAT THE HEAT. AND THE COLD.

A solid core of CFC-Free polystyrene foam bonded between steel panels provides a 6.3 R-Value and offers outstanding thermal and sound insulation with a more solid feel. Plus, the Model 780 has a thermal break between sections.

## ANOTHER DETAIL THAT MAKES A DIFFERENCE

Tongue and groove joint construction seals and aligns the sections providing a snug, weather-tight fit.

## SMOOTH OPERATION

Galvanized steel hinges and self-lubricating rollers are built for a lifetime of use. Each provide smooth acting, quiet operation.
